Have You Noticed That the Sunday AMERICAN, the Biggest Newspaper Success Ever Known in New England, Is the Most Conservative in Matter and Arrangement of All the Boston Sunday Papers?

ITALY WINS
SEA VICTORY
OVER TURKS

Facsimile of the first pages of the Boston Sunday newspapers showing the old-fashioned sensational big black type makeup of the Globe and Post, contrasted with the up-to-date and more conservative first page of the Sunday AMERICAN, which yesterday broke all New England records, including its own previous high water mark in circulation sales, both city and country.

A NEW HIGH WATER MARK IN NEW ENGLAND JOURNALISM SET BY THE SUNDAY AMERICAN

THE Sunday AMERICAN yesterday was the biggest and best regular Sunday newspaper ever published in New England, and in spite of an attempt to provide for the public demand, newsdealers reported to-day that in most instances they had sold out their supply by noon.

Those of discriminating taste who examined yesterday's Sunday AMERICAN, and compared it with other Boston Sunday papers, realized that the AMERICAN believes that it does not take big black headlines, in letters that may be read across the street, to tell the news.

The Sunday AMERICAN had the news and had all of it. It was displayed in a manner much quieter in tone than the old-fashioned, flamboyant style that is still retained by its contemporaries. The Sunday AMERICAN has no other aim than to meet the approbation of New England, and yesterday's makeup of the AMERICAN was the result of a close study of New England taste.

That New England approved of the result was shown by the enormous sale—many thousands more than any other Sunday paper in New England.

There were two big features in yesterday's news—the Turco-Italian war and the dam disaster in Pennsylvania. The Sunday AMERICAN had all the news of both great events, and they were the best written reports that were printed anywhere.

The time has gone by when the keen New England reader bases his opinion upon the length of a news story only—quality now comes first.

In other words, when a story can be well told in a column,

the time has gone by when people desire to wade through a page about it. The Sunday AMERICAN had this fact in mind in the handling of yesterday's big news features.

The mass meeting at Faneuil Hall on Saturday night, when a mighty protest went up against women slavery in iron foundries, followed the expose by the Sunday AMERICAN of the Blake & Knowles foundry conditions in East Cambridge. The Sunday AMERICAN promoted that meeting and it was one of the most successful that was ever held in that historic structure. More than 1,000 people went there who were crowded out.

Including the handsome new MONTHLY AMERICAN MAGAZINE, which made an instantaneous hit, there were 100 pages in yesterday's Sunday AMERICAN. They were brim full of good reading and pictures.

All of the regular features of the Sunday paper were there, with the beautiful new magazine in addition. There were nine separate sections of the paper, each filled with material that had been carefully selected from the best that the world produced in the way of news, special articles, humor, fiction, cartoons and funny pictures.

This is written merely to call your attention to the trend in appearance and matter of the great modern newspaper; to suggest that you compare yesterday's Sunday AMERICAN with other Boston Sunday papers and to remind you that the newsdealers were out of papers by noon yesterday.

ALREADY WE HAVE TURNED OUR ATTENTION TO NEXT SUNDAY'S AMERICAN. IT WILL BE A HUMMER!

ADMIRAL SCHLEY STRICKEN DEAD

NEW YORK, Oct. 2.—Rear-Admiral Henry K. Schley, who was the hero of the battle of Santiago, died at his home in New York City, at 115 Fifth avenue.

While the cause of the admiral's death has not been ascertained, it is stated that he probably died of heart trouble. Admiral Schley, who was the hero of the battle of Santiago, in which the Spanish fleet was annihilated on July 4, 1898, was retired from active naval service. He would have been seventy-two years old on the tenth of this month. He was born in Frederick City, Md., and served with distinction in the war of the rebellion. When the Spanish-American war broke out, Admiral Schley was put in command of the flying squadron.

DYNAMITE IN SOUTH END SAFE ROBBERY

Safe robbers with dynamite placed upon the safe of the South End Trust Company at No. 222 Albany street, during the time between Saturday evening and early today, losing the wrecked safe of \$200 in silver coin.

The dynamite going off as entrance through a rear window. Timing the safe open, they drilled a hole in the back of the safe and blew it apart. The fact that the place had been booby-trapped was not discovered until after 7 p. m. today. Samuel Dier, the proprietor, being absent, observing the Jewish fast day.

Charles Flynn of East Milton, who had been engaged to look after the place while the proprietor was attending to his religious services, made the discovery when arriving at the store today. He immediately notified the police, who are at work on the case.

DIES LOADING A VAN

Joseph H. Nelson of No. 58 Cabot street, dropped dead today while loading a passenger van at No. 37 Wolcott street. Nelson was 45 years of age. He was a native of Washington street, Boston. He is thought to have caused death.

ROME, Oct. 2.—The Ministry of Marine issued a statement to-day that an Italian squadron met three Turkish battleships and several torpedo boat destroyers near the entrance to the Dardanelles yesterday, and that in the engagement which followed the battleships were sunk and the destroyers damaged.

This is the first official statement from an Italian source telling of the reported naval engagement near the Straits of Dardanelles that has puzzled all of the foreign offices to-day. The Turkish authorities at Constantinople have steadily denied that there had been a naval disaster. Unofficially they offset the Italian report with a statement that two Italian cruisers had been destroyed.

Aside, however, from the statement given out at the Ministry of Marine, officials here refused to give any further information about the reported engagement.

LONDON HEARS OF BIG NAVAL BATTLE.

LONDON, Oct. 2.—A great sea battle has been fought between Italian and Turkish fleets, and the Italians won complete victory, although the number of Turkish vessels which were destroyed and the number of killed and wounded is as yet unknown.

Turkish officials admit that there has been a naval battle, but deny that they have won, with such a disaster. All other reports confirm the battle story. The sea fight was off the western end of the Dardanelles. Confirmation is in evidence from various quarters. Long dispatches all state that heavy fighting could be heard as far away as the Bosphorus.

It is believed here that the Italian fleet intercepted the Turkish squadrons, which had been coming in the Mediterranean and had been ordered to return to Constantinople.

Italian Fleet Powerful Aggregation. The Italian fleet sent out to destroy Turkish warships consisted of seventeen battleships and cruisers and many other ships. The Italian fleet was divided into five squadrons. Italy's naval power is regarded as a great power.

It may be many hours before an accurate account of the naval battle is received. If it was fought off the western entrance to the Dardanelles the commander of the Italian fleet, whether Admiral Aubrey or some subordinate, will have won in a splendid manner.

All advice from Constantinople says that the Turkish war fleet was shattered. The Turks are believed to be withdrawing all news. Reports of a commanding officer here say he heard all along the Straits indicate that the fight took place not many miles from the Sultan's capital and that the Italian fleet intercepted the Turkish squadrons in the night of the latter of Constantinople.

Second Naval Loss for Turks.

Reports indicate that the Turks have now won in two sea fights already. The first was an engagement of the Turkish fleet with the Italian fleet, in which the Italian fleet was shattered. The second battle came from Rome to-day and was sent before dawn. It reads: "News of the destruction of the Turkish fleet is unconfirmed." This report, however, is not being taken as a battle has been fought.

TURK ARMY FLEES FROM TRIPOLI AND ITALY TAKES CITY

MALTA, Oct. 2.—The entire Turkish army of defense in Tripoli has evacuated the city, following the occupation by Italian forces, but is concentrating with forces of wild Arab tribesmen in the hills beyond.

Following the abandonment, in which a portion of the city was destroyed and the Turkish army fled, the Italian forces entered the city and took possession of it.

WAR BULLETINS

LONDON, Oct. 2.—The Marquis Imperial, Italian Ambassador to England, and Tewfik, the Turkish Ambassador called at the foreign office this afternoon and held a long conference with British Minister Grey. It is reported that intervention was discussed and preliminary steps toward a tentative agreement were taken.

TOKIO, Oct. 2.—Japan will issue a proclamation of neutrality in the Turco-Italian war, it was announced to-day.

CONSTANTINOPLE.—Owing to the difficulty the Sultan has had in forming a permanent new cabinet there is talk here to-day of a dictatorship under War Minister Cretsch Pasha. Turkey is greatly cheered by the report of the sinking of two Italian cruisers somewhere near Smyrna.

ST. PETERSBURG, Oct. 2.—Threatened war in the Balkans around war preparations in southern Russia. Russia today commenced the concentration of troops on the border of Turkey. The excuse given is fear of an uprising of Kurds.

ST. PETERSBURG, Oct. 2.—A Russian declaration of neutrality in the Turco-Italian war has been issued, but will not be promulgated until Czar Nicholas approves it.

WASHINGTON, D. C., Oct. 2.—The Department of State announced today that this government will not issue a proclamation of neutrality in the Tripoli war until assured that the European governments had done so.

MALTA, Oct. 2.—The British battleships Duncan, Cornwallis, Russell, Triumph and Swiftsure and the cruisers Bacchante, Aboukir and Lancaster arrived here today.

BERGARE, Serbia, Oct. 2.—King Peter has called a special meeting of the Cabinet to discuss the Italian-Turkish war. News has reached here of a concentration of Austrian troops on the frontier of Novi Bazar.

ALL SOLD OUT! Was what you heard if you went to your newsdealers after the early morning hours yesterday for your Sunday AMERICAN. Next Sunday's AMERICAN will be another record breaker. (An important announcement to be made later in the week.) To be absolutely sure of getting your paper it will be well to place your order in advance. BETTER BE SAFE THAN SORRY.

Candidates Must Promise to Help Stop Employment of Women in Foundries.

There are 35,000 factories in the only State of Massachusetts, and only one of them is a factory for women. It is a physical impossibility for us to see that the labor laws of the State are enforced.—W. J. McKeever, factory inspector of the State police, speaking at the Saturday night meeting in Pannell Hall.

A vigorous campaign to have all child labor laws enforced was conducted themselves against the employment of women if they had been planned for the purpose of great mass meetings in Pannell Hall on Saturday night. A vigorous denunciation of the child labor laws was made by the Rev. Cortland Meyer from the pulpit of Tremont Temple. The Child Labor Committee of the State adopted resolutions which denounced the employment of women in degrading work.

Do you believe that women should work in Massachusetts foundries? If you do not, cut out this pledge, hand it to the next candidate who asks you for his vote, or to any candidate whom you know, and ask him to fill it out and mail it to the AMERICAN.

WILL YOU PROMISE, IF ELECTED, TO WORK AND VOTE FOR A LAW PROHIBITING THE EMPLOYMENT OF WOMEN AND GIRLS IN CORE ROOMS AND FOUNDRIES, AND A LAW TO CREATE A DEPARTMENT OF LABOR FOR THE ENFORCEMENT OF ALL LABOR LAWS?

I promise to vote: Yes..... No.....

\$2.50 in merchandise or \$2.00 in cash will be given for Billed Legals Stamp books at Wolfe's, "My Colonial Corner," corner Hanover and Portland Streets.

Chief Whitney of the State Police in a summary of his report of women employment in foundries, said:

[illegible]

WHEREAS, The growing evil of women being employed by gas companies and unskilled employers in dangerous and improper work in stifling, degrading and unhealthy work shops, and

WHEREAS, The continuance of such unsanitary and inhuman employment tends to destroy and undermine the purity, simplicity and nobility

Mr. Fairbanks worked, said that Mr. Fairbanks was away from home a great deal on business trips.

Stomach Sufferers Squander Millions

In Search of Relief. The world is full of diseased stomachs and 90 per cent. of the money spent upon physicians and drugs goes in an attempt to cure the stomach. People are made to believe that in order to gain health they must consume their stomachs and use cathartics. So the doctor sets his fee for the

ELECTED TO WORK AND VOTE FOR A LAW PROHIBITING THE EMPLOYMENT OF WOMEN AND GIRLS IN COKE ROOMS AND FOUNDRIES, AND A LAW TO DEPENDENT CHILDREN FOR LABOR FOR THE ENFORCEMENT OF ALL LABOR LAWS:—

RESOLVED, THAT ALL CITIZENS OF MASSACHUSETTS BE AND THEY ARE, TO BE KEPT FROM EVERY CANDIDATE FOR PUBLIC OFFICE TO THE FORE-
physically, until the savings of a lifetime are exhausted and yet no care.

Let's be realistic!

The sick stomach is very easy the result of over-eating, hurried mastication and improper choice of food. It is the result of coming at the end of the food train towards the end, and when food is forced down the gullet fails to respond. It does not churn the food as they should. The stomach gives out, and the food is unable to find the food and is unable of assimilating. The man has become a dyspeptic.

**MINISTERS DISCUSS
FOUNDRY CONDITIONS
AT SESSION TO-DAY**

The "foundries" was the question asked by Dr. Frederick R. Richards, chairman of the committee on the constitution, at the close of the meeting of the Congressional Athletic Club on Monday, June 10, 1902, while Dr. Richards was making his address to the members of the club in the foundries in Massachusetts.

Dr. Richards, "and the committee ask that you be sworn in as members of this organization and when the committee has heard from you, they are willing to give due notice to the chairman."

This means that the Congressional Athletic Club will be a bona fide athletic club, business appointed athletic meeting last year, and that the members of the club are working in the foundries of this State and are of a useful and thoughtful nature.

anybody of which Dr. Duggan and Indigotto, and such athletes as come from poorly drilled and untrained men.

While they dig the food in stomachs recuperate. The muscles remember to come out of the stomachs and to the muscles are replacing their power. Every corner of the body takes on new life, the skin glows with new life, the eyes are no longer tinged with yellow. You live.

Why doctor and why dream? Sturtevant's is the answer. You will take care of your body. Nature cures you.

Try a box at all the drug stores, 50 cents. Or, if you prefer, write to me for a box. I will send you your name and address free. F. A. Stuart Co., 150 West 84th, New York, N. Y.

Most of the ills of childhood are caused by a sour, disordered stomach, sluggish liver and constipated bowels. They catch cold easily, become cross, listless, irritable, feverish, restless, tongue coated, don't eat or sleep well and need a gentle, though thorough, physic—but don't try to force a nauseating dose of oil into the little one's already sick stomach—it is cruel, needless and old-fashioned.

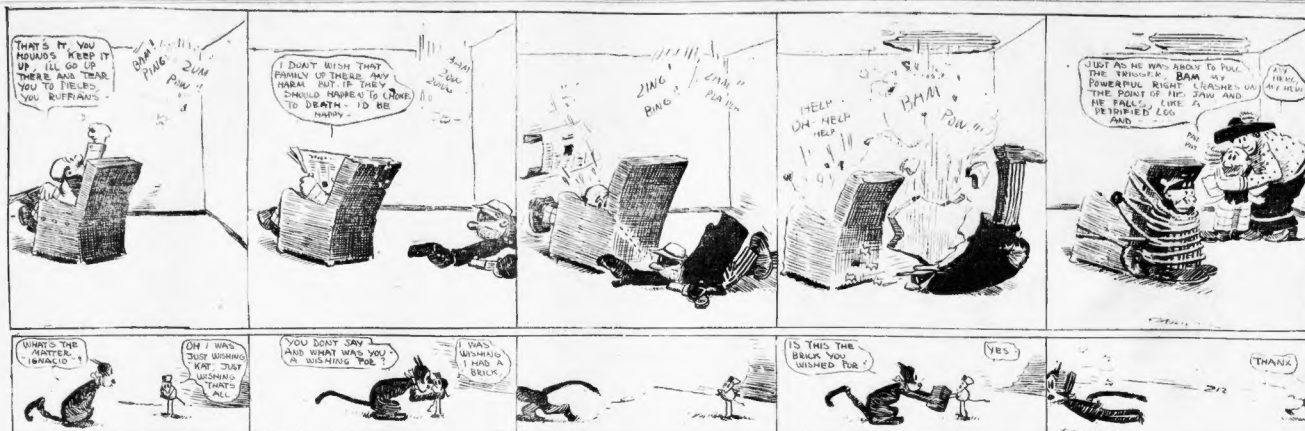

Any child will gladly take Cascarets, which act gently—never gripe or produce the slightest uneasiness—though cleanse the little and big system, sweeten the stomach and puts the liver and bowels in a pure, healthy condition.

Full directions for children and grown-ups in each package.

Mother can rest easy after giving this gentle, thorough laxative, which costs only 10 cents per box.

REGULATE STOMACH, LIVER & BOWELS
TASTE GOOD - NEVER GRIPE OR SICKEN.

THE ADVENTURES OF DINGBAT AND THE FAMILY UPSTAIRS ARE A REGULAR FEATURE OF THE SUNDAY AMERICAN

EXPORT TRADE SAID

The great industrial and educational ex-
position of New England's Industries and
Manufactures opened to-day in Mechanic
Building. It is a wonderful demonstration
of New England's industry and spirit.
Business men and educators attended the
opening. The great fair was thrown open
to the public at 10 o'clock and will remain
open for a month.

Every manufacturing city in this sec-
tion has contributed to the wonderful dis-
play of New England goods of which the
"standard" is quality. There is some-
thing to interest the old and young. The
things which school books and class books
have taught us work out in a practical
manner for the young.
